PRODUCT BULLETIN: 14-007a

SUBJECT: Folger Adam NS400 Series – New Latchbolt Design

DATE: April 2, 2014

For improved product performance of the Folger Adam NS400 Series Models with Latchback (LB), the latchbolt has been redesigned in stainless steel with a notch and added chamfer. Testing to 1 million cycles has been completed.

This product improvement will be in effect for models produced on or after May 1, 2014.

For existing NS400 LB version locks, part number 075-3609-001 - Latchback Catch with Roll Pin, remains available to order as a replacement part.
