SOUTHERN FOLGER 8000 AND 9000 SERIES CONTROL PANELS

For controlling and/or monitoring locks and devices.
 Review Product Data Sheet for more information.

	MODEL NO.	DESCRIPTION
	8100	Basic Door Control Panel with 8 relay points per panel, switches arranged linearly. Typically supplied in an optional desktop turret. Panels can be grouped to control up to 24 points per turret.
	8400	Custom Door Control Panel, engineered to meet exact user requirements and including graphics, interlocks, group and emergency release, using the standard features found in the 8800 Series controller.

8100 panels are defined by relay points. Typical lock requires one, but Open-Close devices require two or more relay points.

9000 Series Control System — PLC-based programmable, remote control system with options not available in 8000 Series for greater flexibility in range of operation.

Southern Folger specializes in the design and manufacture of custom panels. Because panel requirements and security systems are so diverse, each unit is custom designed and priced to fit your needs. For pricing options and configurations, contact 1-800-477-5537.
