PRODUCT BULLETIN: 11-008

SUBJECT: TestPro Test Unit for Southern Steel and Folger Adam Locks and Devices

DATE: July 7, 2011

Notice to all TestPro Owners:

A new Lock Termination Lead/Adapter (TPA-009) is available for the Southern Folger TestPro test unit. This adapter tests Southern Steel 1050 Series Gate Locks and other locks without a Molex termination. The Spring Clamp Terminal Block will allow for easy connection from the lock wires to the TestPro Unit.

One TPA-009 Adapter and revised Adapter Reference Plate, which may be applied by owner to replace existing plate on the reverse side of the unit, are available at no charge by calling 210-533-1231. Additional adapters are available for \$25 each.

UNIVERSAL TEST UNIT

SOUTHERN FOLGER TESTPRO

The Southern Folger TestPro test unit is a sturdy, portable unit for preventive maintenance checks. With easy-to-read indicator lights, this ergonomically designed test unit will operate all current models of Southern Steel and Folger Adam electric and pneumatic locks and locking devices. Controls are consolidated into a single set of switches for all lock functions.

Standard features include:

- **Indication** – Two sets of colored indication lights are included on each unit.
 - o Green Secure/Red Unsecure for DPS indication
 - o Green Secure/Red Unsecure for Auxiliary indication
- **Fuse Protection** – A 4-amp fuse is mounted on the front of the test unit for easy replacement. Spare fuse holder stores replacement fuse.
- **Voltage Selector** – A key-operated, multi-voltage selector switch allows operation of 24VDC and 120VAC units.
- **Cycle Type Selector**—A key-operated Cycle Type selector switch allows operation of Half Cycle and Full Cycle Devices.
- **Three-position center-off control switch** allows open/close type testing. The control switch is momentary contact, spring loaded to the center-off position.
- **Case** – Ergonomically designed steel case.
- **Power Connection** – all units are equipped with a 3-prong, industrial-rated 120VAC GFI power plug with integral test and reset controls.

UNIVERSAL TEST UNIT

SOUTHERN FOLGER TESTPRO

TECHNICAL DATA

Part No: 76710852 Rev B.1

Indication: Door - Green Secure/Red Unsecured
Auxiliary - Green Secure/Red Unsecured

Controls: Keyed Voltage and Cycle Selection

Supply Voltage: Standard 120 VAC Plug

Weight: 6 lbs

Dimensions: 8 1/2" x 5 3/8" x 4

Case: Fabricated Steel Enclosure

Lock Termination:

- Integrated Lock Lead - 12-pin connector to test most 24VDC and 120VAC Folger Adam locks and devices.
- 12 Pin to Alligator Clip Adaptor – test locks and devices without Molex terminations.
- 12 Pin to 6 Pin Adaptor – test most Southern Steel Locks
- 12 Pin to 6 Pin Adaptor – test most Southern Steel Sliders
- 12 Pin to 12 Pin Adaptor – test Southern Steel 10300M
- 12 Pin to 12 Pin Adaptor – test Southern Steel 10300MD
- 12 Pin to Spring Clamp Terminal Block -- test Southern Steel locks without Molex terminations and 1050 series

Option: Custom Adaptors can be created to meet facility needs.

The TestPro Unit can be used on the products listed below and also works on most non-standard products. If necessary, custom adaptors can be developed for use in testing of other devices.

**Southern Folger TestPro
Operating Instructions**
Part Number 76710852 Rev B.1

TESTPRO FEATURES

1.	LED – Door Position Indicator	Green Secure/ Red Unsecure
2.	LED – Door Position Indicator	
3.	Fuse Holder 4.0 A	
4.	On/Off Toggle Switch	
5.	LED – Power On/Off Lamp	
6.	Voltage Selector – A key-operated, multi-voltage selector switch which allows operation of 24VDC and 120VAC units.	
7.	Cycle Type Selector – A key operated switch which allows operation of Half Cycle or Full Cycle.	
8.	Three-position center-off control switch which allows open/close type testing. The control switch is momentary contact, spring loaded to the center-off position.	
9.	Spare Fuse Holder	
10.	LED – Auxiliary Indication	Green Secure/ Red Unsecure
11.	LED – Auxiliary Indicator	

****CAUTION: Always consult product wiring diagrams for proper voltage selection.**

The **Southern Folger TestPro** is designed to operate Southern Steel and Folger Adam 24VDC and 120VAC locks and locking devices. Updated controls have been simplified and consolidated for most lock functions into a single set of control switches.

Contents of Box: TestPro Unit with attached Power Cord and Molex connector; six (6) Adapters Labeled TPA001 - TPA005 and TPA009; four (4) Keys for Key Switches; Operating Instructions.

If noticeable damage or any contents are missing, please contact Southern Folger's Customer Service Department immediately at 210-533-1231.

For assistance, call 1-800-477-5537.

Operating Instructions for Southern Folger TestPro

1. Access the product's plug connector(s). Disconnect the plug connector(s) from field receptacle(s). This isolates the product from any field wiring and controls. *If the product does not use a plug-in connection, select appropriate adaptor (Adaptor Chart below is also located on the back of TestPro unit.)*
2. Connect TestPro field receptacle to the product's plug connector. A slight side-to-side motion may be required to seat the connector fully. Do not use excessive force as this may damage the pins in the connectors.
3. Check that the On/Off Toggle Switch (4) is set to the off position. Plug the TestPro power cord into a 120VAC grounded outlet. **Do not use any type of grounding adaptor or break off the ground pin on the plug. It is there for your protection! In the event that there is a short circuit, dangerous voltages may be present on the case of the TestPro resulting in serious injury.**
4. Refer to product wiring diagram and set TestPro to:
 - a. 120VAC **or** 24VDC (Keyswitch 6) **and** b. Full Cycle **or** Half Cycle/Slider (Keyswitch 7)
5. Turn TestPro ON - LED Lamp (5) indicates power is on when lit. Check lock or sliding door using the TestPro as your control. Don't forget to test the switch settings of the indication lamp circuit(s). Turn TestPro OFF and remove from product.

ADAPTER CHART

Adapter Number		Adapter Number	
TPA001 – See color code breakout below	For use with locking devices with no Molex connection **	TPA003	Southern Steel Locks 10300M
