CONTROL PANELS

For controlling and/or monitoring locks and devices.
Review Product Data Sheet for more information.

	MODEL NO.	DESCRIPTION	UNIT PRICE	SHIPPING WT. (LBS)
	8800	Basic Door Control Panel with 8 relay points per panel, switches arranged linearly. Typically supplied in an optional desktop turret. Panels can be grouped to control up to 24 points per turret.	POR	VARIES
	8400	Custom Door Control Panel, engineered to meet exact user requirements including graphics, interlocks, group and emergency release, using the standard features found in the 8800 Series controller.	POR	VARIES

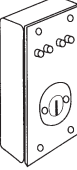

8800 panels are defined by relay points. Typical lock requires one, but Open-Close devices require two or more relay points.

Southern Folger specializes in the design and manufacture of custom panels. Because panel requirements and security systems are so diverse, each unit is custom designed and priced to fit your needs. For other options and configurations, contact the factory.
