# Mechanical Locks

## 1017AD Snaplatch

### APPLICATION

For food passes, observation, shutters, and other small swinging doors where Snaplatching is desired. In a detention facility, these locks are suitable for securing utility access doors and small indoor shutters, such as a food pass. Commercial building application possibilities are numerous and include the locking of all types of panels that provide access to mechanical spaces.

### FUNCTION

Key activated unlatching. Snaplatches upon closing. Automatic deadlocking latch affording the convenience of "slam" locking

### OPTIONAL FEATURES

EXTENDED BOLT - Used for hollow metal door mounting. Specify "1 inch".

### STANDARD FEATURES

- Automatic snaplatch
- Six heavy-duty tumblers
- Mounting fasteners

1017A-1: KEYED ONE SIDE
